*As a registered nurse, I care about my patients' health. Unfortunately, the insurance companies care about making money.*

- Mitzi J. Cagle, RN, BSN

*No American family should face financial ruin because someone gets sick. And certainly not one more American should die because he or she was denied treatment. Universal, single-payer health care is within our reach and it our duty and responsibility to push for it.*

- Donna Smith, *Sicko* movie star and founder of American Patients United
